

Dear Parent(s)/Guardian(s),

We are excited to kick off **American Education Week**. In this baggie is a **crayon cut-out** that will serve as a reminder of why getting an education is important. These **crayons** will be hung in our library, right by the new second grade wing. Each student will receive a **crayon** in a baggie and they are being asked to write or draw on one side of the crayon, **Education is important to me because....or My Favorite part of the school day is...** We are asking that the parents or guardians write on the other side of the crayon...**What I remember most about school is...or Education is important to me because...When the crayon is written on please return it to school with your student on Monday or Tuesday.** Your student's crayon will then be hung up with all the others.

Thank you,
Community Committee
